UNIVERSITY OF
WATERLOO

OPENING THE DOOR TO INNOVATION AND BOLDLY WALKING THROUGH TOGETHER

uwaterloo.ca/global-impact

Waterloo calls on all creators, explorers and boundary-pushing thinkers to join us in delivering solutions to today's and tomorrow's challenges in six critical areas:

- › **Human-machine interaction** – Developing technologies in the areas of health, security and the economy to improve lives now and in the future.
- › **Next-generation computing** – Finding new ways to use and protect data in a future where quantum technologies bring both promise and risk.
- › **Social and economic prosperity** – Examining how technology and policy play important roles in creating a world free from discrimination.
- › **Sustainable planet** – Exploring the implications of living in a period of climate crisis, while creating clean and sustainable energy alternatives.
- › **Technology and human health** – Changing the way we see individual and public health by integrating all disciplines in the search for solutions.
- › **Transformational discoveries** – Understanding that the next breakthrough to drive society forward will be built on the fundamental science that came before it.

YOU+WATERLOO

Our greatest impact happens together.

In 1957, the University of Waterloo opened its doors to 74 engineering students with co-operative education as its cornerstone.

Today, with more than 42,000+ students attending annually, Waterloo is #1 in Canada for experiential learning and employer-student connections.

With a global network spanning more than 220,000 alumni in 151 countries, Waterloo attracts world-class scholars including a Nobel Laureate, leads in providing work-integrated learning opportunities with 7,100+ active co-op employers and fosters an entrepreneurial spirit that's created 5,000+ jobs through Velocity alone, Canada's most productive startup incubator by private investment.

This is why 474 Waterloo entrepreneurs have been able to raise \$12.9 billion since 2006. It's also why more than 10,000 donors from 39 countries donated \$46 million to Waterloo in 2019-20 and continue to donate today.

The University of Waterloo continues to spur innovation to solve problems on a global scale. Together, with the help of our partners and community, we can accomplish even more.
