

INVITATION TO PARTICIPATE IN A NATIONAL SURVEY ON CLIMATE CHANGE / SUSTAINABILITY EDUCATION IN CANADIAN PROFESSIONAL DEGREE PROGRAMS

The University of Waterloo's Climate Institute is inviting university and college professional programs to participate in a research study to assess the state of climate change and sustainability education in Canada's accounting, architecture, engineering and planning programs.

Participants will benefit from:

- ✓ Access to the findings and final report
- ✓ Opportunity to join a Community of Practice to support the integration of climate change education into professional degree programs in Canada

Who should participate:

- ✓ Program /curriculum leads for Engineering, Accounting, Architecture and Planning programs

Our research questions:

- ✓ What are universities and colleges already doing to integrate climate change and sustainability into their engineering, accounting, architecture and planning programs?
- ✓ What are the barriers and enabling factors? What supports do they need?

**Survey
closes November 8,
2024**
