

CISC Excellence Award in Steel Design

Program: Engineering→Architecture

Enrollment year: Enrolled in the 3rd or 4th year of the Bachelor of Architectural Studies program.

Award description:

An award, valued at \$3,000, is presented annually to a full-time undergraduate student enrolled in the Architecture program who has demonstrated outstanding work in the area of steel design. Selection will be based on project work in a third- or fourth-year Design Studio course. This fund is made possible by a donation from the Canadian Institute of Steel Construction Education Foundation.

Value: \$3000

Eligibility & selection criteria:

Selection will be based on project work in a third- or fourth-year Design Studio course.

Application/nomination process type: Project Submission

Award deadline:

April 30 each year
