

## **KIRKOR Architects + Planners Graduate Scholarship in Entrepreneurship**

**Program:** Engineering→Architecture

**Enrollment year:** Masters

**Award description:**

One scholarship, valued at \$5,000, will be awarded annually to a full-time graduate student enrolled in any year of the master's program in the School of Architecture in the Faculty of Engineering. Selection is based on research or a project demonstrating merit in entrepreneurship within the field of architecture. The recipient will be a current or aspiring start-up founder, and/or have an idea that solves a problem not yet demonstrated in the market. Research projects should have clear entrepreneurial applicability. Students interested in applying must submit an application that can be found on the School of Architecture website, by the deadline advertised. This fund is made possible by a donation from KIRKOR Architects + Planners.

**Value:** \$5000

**Eligibility & selection criteria:**

Full-time graduate students registered in the master's program in the School of Architecture in the Faculty of Engineering. Selection to be based on excellence in entrepreneurship within the field of architecture at the graduate level.

**Application/nomination process type:** Project Submission

**Term deadline:** Spring

**Application deadline:** April 30
