

Biomedical Discussion Group

CALL FOR SPEAKERS – Fall 2016

Every 3rd Thursday of the month from 2:30 –3:30 pm
Science Teaching Complex (STC) Room 1019

September 15

October 20

November 17

December 15

The Biomedical Discussion Group is open to all faculty, postdocs, students, staff, and visiting researchers.

CBB is looking for **Faculty or Postdoc's** to present on a variety of topics within biomedicine or technologies that could be applied within the biomedical field.

If you are interested in participating or would like to nominate someone, please [email CBB](#) with your ideas.

Benefits:

- Learn about new and exciting research developments
- Network across other faculties and departments
- Collaborate on potential grants/funding opportunities
- Indulge in coffee and cookies while getting inspired!

Join the Biomedical
Discussion Group [mail list](#)

CBB can help with:

- Event advertising
- Logistical set-up
- Video recording for CBB's YouTube library or personal use
- Some financial support to bring in an external guest to present
- Planning, co-hosting or cost sharing with your home department

The [Centre for Bioengineering and Biotechnology \(CBB\)](#) brings together faculty members from all faculties on campus who have an interest in exploring how human health can be improved through technology. CBB actively supports networking and academic events and aims to bring together a wide variety of perspectives to encourage multidisciplinary research collaborations to help solve the world's toughest problems.
