

## International BiophysicsWeek Celebration: March 9, 2016 at the University of Waterloo

Dear Biophysics Researchers and Students at University of Waterloo,

We invite you to participate in a one-day Biophysics workshop on Wednesday March 9th to celebrate [International BiophysicsWeek 2016](#).

### Highlights:

- Short talks from faculty members about their Biophysics research
- Graduate student poster presentations
- A light lunch and Networking

**[Registration required by March 2](#)**

The event is supported by the [University of Waterloo](#), Waterloo Institute for Nanotechnology ([WIN](#)), and the Centre for Bioengineering and Biotechnology ([CBB](#))

*Message from Biophysical Society:*

*The very first Biophysics Week is coming up March 7-11, 2016. Mark your calendars and join your peers in celebrating this special week. Biophysics Week is a global effort to encourage connections within the biophysics community and raise awareness of the field and its impact among the general public, policy makers, students, and scientists in related fields.*

*Check out the updated Biophysics Week website to see all the events happening around the world and the resources available to you: lesson plans, career brochures, profiles, fun facts, blogs, news, and more. Currently, there are registered events taking place in ten countries across the continents of Asia, Europe, North America, and South America, with more events being added daily--- you may find that some of them are happening near you!*

*To find out more about Biophysics Week and to see the most up-to-date list of events, visit [www.biophysics.org/BiophysicsWeek](http://www.biophysics.org/BiophysicsWeek). Check back daily for featured events and new resources during this unique week dedicated to you and the field of biophysics.*
