You are invited to...

University of Waterloo Research Partnering Event Devices & Sensors

Wednesday June 18, 2014, 2-6 p.m.

**Mike and Ophelia Lazaridis Quantum-Nano Centre (QNC) Room1501
University of Waterloo, 200 University Avenue West, Waterloo, Ontario**

Waterloo technologies are revolutionizing the development of sensors and devices and contributing to innovative solutions across health, medicine, pharmaceuticals, agriculture, food, water, environment, energy, cleantech, manufacturing, construction, software and more. Join us to discover some of the amazing science and engineering underlying innovative devices and sensors and for the opportunity to network and explore collaboration opportunities.

Those in attendance have the chance to win a Jawbone UP24 fitness tracker!

2:00 Welcome & Opening Remarks
2:15 Researcher & Company Presentations
3:45 OCE Partnership Programs
4:00 Closing Remarks & Open Showcase of Posters, Demos and Networking Reception

RSVP required before June 4.

No charge to attend but registration is required as seating is limited:
