

# Plan requirements for Honours Biology (Regular or Coop) Animal Specialization

## Effective Fall 2018

| <b>Required BIOL courses</b> |           |           |           |
|------------------------------|-----------|-----------|-----------|
| BIOL 110                     | BIOL 120  | BIOL 130  | BIOL 130L |
| BIOL 150                     | BIOL 165  | BIOL 211  | BIOL 239  |
| BIOL 240                     | BIOL 240L | BIOL 273  | BIOL 273L |
| BIOL 302                     | BIOL 303  | BIOL 308  | BIOL 310  |
| BIOL 331                     | BIOL 341  | BIOL 359  | BIOL 370  |
| BIOL 371                     | BIOL 373  | BIOL 373L | BIOL 477L |
| <b>Total = 11.0 units</b>    |           |           |           |

| <b>Required CHEM courses</b> |           |          |           |
|------------------------------|-----------|----------|-----------|
| CHEM 120                     | CHEM 120L | CHEM 123 | CHEM 123L |
| CHEM 266                     | CHEM 266L | CHEM 237 | CHEM 237L |
| <b>Total = 3.0 units</b>     |           |          |           |

| <b>Program elective</b>                  | <b>STAT unit</b>        |
|------------------------------------------|-------------------------|
| One of MATH 114,<br>MATH 127 or PHYS 111 | STAT 202                |
| <b>Total = 0.5 unit</b>                  | <b>Total = 0.5 unit</b> |

| <b>Required BIOL elective units</b>                                                                                                                                                                     |                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| <b>A total of 2.0 units of 400-level BIOL courses</b>                                                                                                                                                   |                       |
| 1. required from list                                                                                                                                                                                   | 2. required from list |
| 3. required from list                                                                                                                                                                                   | 4. required from list |
| Four courses (2.0 units) from the following list: <i>BIOL 403, BIOL 414, BIOL 434, BIOL 438, BIOL 441, BIOL 450, BIOL 472, BIOL 473, BIOL 479, BIOL 483, BIOL 486, BIOL 490A, BIOL 499A, BIOL 499B.</i> |                       |

| <b>Required SCCOM course</b> |
|------------------------------|
| SCCOM 100                    |
| <b>Total = 0.5 unit</b>      |

| <b>Elective courses</b>                                                                                                                                        |    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>Max 3.0 units of SCI courses</b>                                                                                                                            |    |
| 1.                                                                                                                                                             | 2. |
| 3.                                                                                                                                                             | 4. |
| 5.                                                                                                                                                             | 6. |
| 7.                                                                                                                                                             | 8. |
| 9.                                                                                                                                                             |    |
| Animal Specialization - total # of units is 22.0<br>Recommended 1.0 units from Arts and 0.5 unit from English Department<br><b>Total electives = 4.5 units</b> |    |
