

Surname: \_\_\_\_\_ Given Name(s): \_\_\_\_\_

Current Term: \_\_\_\_\_ ID Number: \_\_\_\_\_

Supervisor(s): \_\_\_\_\_

Proposal Title: \_\_\_\_\_

**Check the box to confirm your research relates to the following definition of Biomedical Engineering Research:** *Biomedical Engineering Research is an interdisciplinary field of research that applies principles from engineering, science, mathematics, and computer science to solve complex problems in medicine and biology for health purposes. The aim is to develop knowledge, technologies and methodologies that may improve the prevention, diagnosis, monitoring, and treatment of diseases, illnesses, and injuries, as well as enhance the quality of life for individuals with various medical conditions.*

**Advisory Committee Membership:**

Supervisor(s) plus two University of Waterloo faculty members of which at least one is a BME graduate faculty member (internal), and one who is not a BME graduate faculty member from the student’s supervisors’ home department (internal/external). **All members of the committee must be present at the proposal defence.**

Full Name	Member Type	Adjunct	Signature
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

Signing the above committee membership indicates approval to serve on the Advisory Committee for both the MASc Thesis Proposal and MASc Thesis for the named student.

**Committee membership approved by the Director of Biomedical Engineering Graduate Program:**

Signature, Director of Biomedical Engineering Graduate Program      Date

<b>The MASc Thesis Proposal Defence is scheduled for:</b>					
_____	_____	_____	_____	_____	_____
Day of Week	Month	Day	Year	Time	Location

Students should work with their supervisor(s) to establish a MASc Advisory Committee.

The MASc Advisory Committee must include at least three examiners (four in the case of co-supervision):

- The student's supervisor or co-supervisors (one is to be a BME graduate faculty member)
- One BME graduate faculty member (the internal)
- One faculty member who is not a BME graduate faculty member from the student's supervisors' home department (internal/external)
- At least two of the committee members must be tenured or tenure-track
- A maximum of one committee member can have an adjunct appointment or emeritus status
