WHOSE LAND ARE WE ON?

The University of Waterloo acknowledges that much of our work takes place on the traditional territory of the Neutral, Anishinaabeg and Haudenosaunee peoples. Our main campus here in Waterloo is situated on the Haldimand Tract and I, a settler to this land, live on Treaty 29 Territory, original home to the Anishinaabeg, Mississauga and Neutral peoples. The art depicted here is from local artist Alanah (Morningstar) Jewell whose artwork is inspired by the natural landscape of the Grand River. I was very drawn to it because it speaks to one of my favourite things- the landscape of rivers- and I wanted to amplify a local artist's work and contribution. As a settler, I am grateful that we are here on this land and able to come together today and share space.
