

Introduction of RIST and Mg welding activity

Overviews of RIST (Research Institute of industrial Science & Technology) will be introduced with video. Also Mg manufacturing and some productions are being show on slide. I will present some results of welding activity such as MIG/TIG, Laser, FSW processes.

Biographical Sketch

Dr. Mok-Young Lee was graduated in Yeungnam University in 2004 (PhD). He has been running several industrial laser applications on steel, stainless steel, magnesium alloy. Currently he is running National Project about the Mg Joining for Automobile Application.
