

**Effectively Integrating ePortfolios: A Model for Student Success**

<b>Process</b>	<b>Prompts to Consider</b>	<b>Your Context</b>
<p><b><i>Introduce the ePortfolio Early/Communicate Expectations</i></b></p>	<p>What expectations do you as an instructor bring to your course?</p> <p>What expectations do your learners have?</p> <p>What are the learning outcomes that the ePortfolio addresses?</p> <p><b>How will you communicate the importance of reflection to the students?</b></p> <p>How will you communicate how much time students will spend on the ePortfolio?</p> <p>How will you communicate the importance of developing the habits of mind that value personal and intellectual growth?</p>	
<p><b><i>Give 'em Grades</i></b></p>	<p>How are the ePortfolio activities integrated into your overall assessment/evaluation of students' learning?</p> <p>How will you communicate the importance of documenting learning to your students by assigning grades?</p>	
<p><b><i>Provide feedback early and often (instructor or peer)</i></b></p>	<p>How will you provide feedback to students on their work?</p> <p>Will rubrics be used?</p> <p>Will students have an opportunity to provide feedback to their peers?</p> <p>How?</p>	

<p><b>Disciplinary Context</b></p> <p>Relate the activities directly to the needs and interests of the students <b>as members of the discipline</b></p>	<p>How can the ePortfolio be incorporated in a way that makes sense for the discipline?</p> <p>How can you model the appropriate disciplinary thinking for students?</p> <p>What are the threshold concepts in the discipline that might be addressed in the ePortfolio?</p>	
<p><b>Meaning Making (Making Connections)</b></p>	<p>How can you provide time and space for learners to make connections between the learning in your context and that which happens in other contexts?</p> <p>How can the ePortfolio be used to address diverse ways of learning?</p>	
<p><b>Threshold for using ePortfolio (as opposed to other activities/assessments)</b></p>	<p>What resources will you provide to enable learners to use the ePortfolio effectively and efficiently?</p>	

## What questions do I have about ePortfolios?

### Applications Card Exercise
