More Fast Facts about CTE

In 2019-2020, student volunteers, along with UW Housing, the Centre for Teaching and Learning, and the Arts Faculty, created the Art History Resource for CTE's workshops for the Winter Term. When clicked, the purple pins representing the artists open to columns of detailed information that the students developed for each artist:

- Tommy Mayberry, formerly of CTE and the Centre for Teaching and Learning, created an interactive map called Art History Resource. This was a collaborative map of the artists’ locations:

- Researched several artists from around the world — and even directly contacted some — to learn more about their work:

- Each student gathered a photo, artist bio, and a two-page text about the artist :

- The 2019-2020 theme of Tommy's workshop is now available online. If you missed the workshop, a video recording is available here:

- The goal of the project was to create a resource that was accessible to students of any discipline and that could be used by courses including Art History and Gender and Women’s Studies:

- The project was so successful that Bojana intends to have new students further update and expand the resource:

- Tommy's workshop is now available in the graphic below: 

- 1. Recruit more volunteers:
- 2. Be more intentional about the time frame you set for creating the resource: for example, if you set a 4-week time frame, then do it. The follow-up is often more important than the initial steps:

- Researchers are:
- 1. Dr. Sally Brown, Independent Consultant in Learning, Teaching and Assessment and Emerita Professor at Leeds Beckett University, UK
- 2. Dr. Kay Sambell, Independent Consultant and Visiting Professor of Assessment and Emerita Professor at Leeds Beckett University, UK
- 3. Dr. Michelle Power, Independent Consultant with the University of Waterloo
