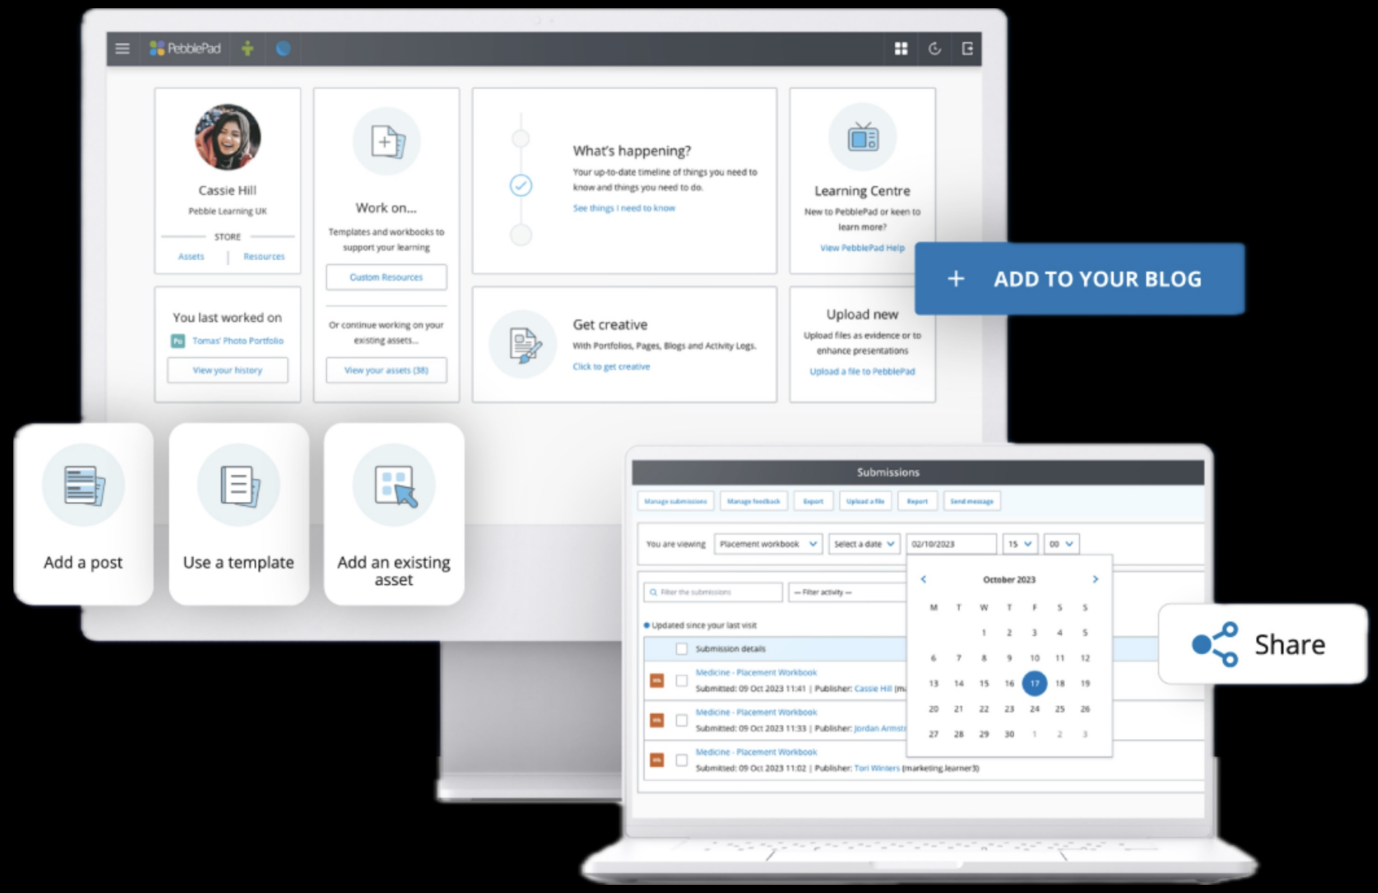
Engaging Students through Pebblepad Workbooks

GLIDE Workbook

2 May 2025



https://pebblepad.com

UNIVERSITY OF WATERLOO

OUTLINE

1. GLIDE workbook project
2. Student feedback
3. Hands on activity
4. Other PebblePad functions

WHY, WHAT, HOW

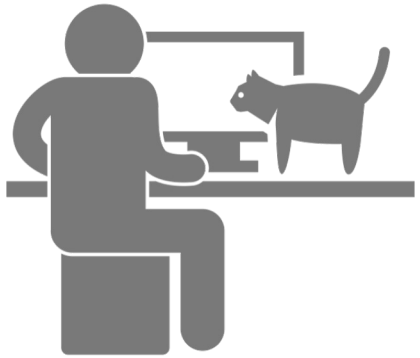
CONTEXT

Virtual environment to manage a new certificate program: GLIDE (Global Learning, Intercultural Development, and Engagement)

I needed a platform…

I had support…

Process required…



Result

WHY, WHAT, HOW

CONTEXT

Virtual environment to manage a new certificate program: GLIDE (Global Learning, Intercultural Development, and Engagement)

I needed a platform…

- Reliable, flexible design, great interface, easy navigation, student submissions, tracking
- **Tricky part:** GLIDE is completed in a flexible (not linear) way

I had support…

- CTE's Katherine Lithgow and Natalie Chow
- **Regular meetings:** Discuss ideas to meet my needs, answer questions, create the initial set up

Process required…

→ Learning PebblePad

→ Creating content, structure, interactions, visuals

→ Overall checks and feedback

→ Student testing

Result

- Full, interactive, multi-part workbook
- Combining LEARN and PebblePad
- Key: Integrates all the attributes I needed (and more)

Vector: Adrien Coquet, Miftakhudin, Gan Khoon Lay, ND's studios from Noun Project

GLIDE Workbook

What I like about PebblePad

Developer

- Variety of activities
- Attractive interface
- Seamless multi-media integration
- Editability
- Ability to add content / sections later
- Once you learn → intuitive

Instructor/Administrator

- Tracking submissions
- Assignments, rubrics, evaluation in one place
- Personalized feedback
- Admin collaboration
- LEARN integration

Student user

- In addition to what was shared
- Access to recorded feedback
- Ability to personalize projects
- Students can take their portfolio when they graduate

Challenges

- Learning curve
- Have a structure from the beginning → not for brainstorming
- Some functions may be in different places
- No autosave
- Detailed instructions required
