

Elementary word search puzzle

Avi Ornstein
Classical Magnet School
Hartford, Connecticut

Enter your students' correct solutions into a draw on or before December 1, 2019. The prize is a Bismuth Crystal and is donated by Educational Innovations (www.teachersource.com). Please have your students **print their full name clearly**, and send your students' solutions to: *Chem 13 News*, Elementary word search puzzle, Department of Chemistry, University of Waterloo, Waterloo, Ontario, N2L 3G1; or email kjackson@uwaterloo.ca, along with your school's complete mailing address. Prizes are for Canada and United States submissions only.

Find the elements that are hidden in straight lines in this grid (horizontal, vertical or diagonal, and going forward or backward) and the remaining letters will spell out a quote of Richard Feynman.
