

# Researcher's Declaration

## A) Researcher's Declaration

I acknowledge that I reviewed the Chemical Engineering Safety Manual, in the link below:

<https://uwaterloo.ca/chemical-engineering/safety-first/chemical-engineering-safety-manual>

which sets forth the health and safety rules and practices to be followed when conducting research in the laboratories of the Department of Chemical Engineering. I declare that I am thoroughly familiar with and fully understand its content.

I understand that as long as I am a researcher in the Department of Chemical Engineering, I am responsible for obeying the safety rules, in addition to the requirements **of University of Waterloo Policy #34** and the **Ontario Occupational Health and Safety Act** and any later amendments or regulations thereof. I also understand that I must continually aim to be self-informed about all health and safety aspects of my research work and to exercise good judgement in the application of safe working practices in order to prevent accidents which may cause injury to either myself or to others. I am also aware that I am responsible for informing my supervisor in advance of using any new chemicals, materials, equipment, or procedures which may be of a hazardous or potentially-hazardous nature.

Name (print) \_\_\_\_\_ Status (RA, Grad, IVGS, PDF) \_\_\_\_\_

## B) Supervisor's Acknowledgement

1. I have discussed the relevant sections of this *Manual* and other project-related health and safety background information with the above-named individual, who has been requested to prepare and submit to me a Safety Report (as described in the *Chemical Engineering Safety Manual*).

2. I acknowledge that I have read the above-named individual's Safety Report, and I consider it to be satisfactory for the prescribed research.
