

Quick Tips (use along with original instructions)

Blokus (2-4 players)

Setup:

- If you are 2 or 3 players, each player chooses all 21 pieces of one colour.
- If there are only 2 players, take 2 colours each.

How to Play:

- On their **first turn**, each player must place one piece so that it covers one of the **four corner squares** on the grey board.
- Following this, players take turns, laying down one piece at a time so that:
 - Each new piece laid must **only touch the CORNER EDGE of a piece of the same colour**. Pieces of the **same colour** can NEVER touch the **flat** sides of pieces of the same colour.
 - However, a piece can touch the side(s) of another piece if they are **different colour**.
 - See page 2 of the instruction manual for illustrations of these rules.

How the Game Ends and Scoring:

- Game ends when no players can lay any more of their pieces in a way the fits the rules.
- When the first player runs out of pieces, each player has one more turn to try and play a piece.
- Players calculate their score by counting all the **individual** squares making up the pieces they have **left over**. The **lowest** score wins!
