Work together to collect all the potion ingredients to break the evil Wizard's spell! In Cauldron Quest, you will roll dice to find the correct ingredients hidden under potion bottles and move them up the paths towards the cauldron. But be careful – the evil Wizard can block your path or push your potion back to the beginning! If all three potion bottles with the correct ingredients reach the cauldron before the wizard blocks all the paths, then you all win! If not, the Wizard destroys the kingdom, and you will have to try again!
