

## Quick Start Instructions

### Cozy Cottage Bingo (2-6 players)

How to play:

1. Place all 48 of the room picture tiles in the bag. Each player can choose a game board of a different animal's house with 8 empty rooms around the "FREE" room in the centre. If you are 2 or 3 players, you can decide to all take 2 or 3 boards if you like or you can put the extras back in the box.
2. Players take turns being the "bingo caller". The caller's job is to reach into the bag, pull out a tile, and as best as you can describe the animal(s) in the room, what they are doing and show the tile to the other players.
3. If a player has a game board that matches the animal(s), they can take the tile and put it on the matching empty room square. Your house now has something going on in this room! If the tile does not match the animal on anyone's board, put it back in the box.
4. The game continues until someone fills all of the squares on their house game board (except the middle square) with room picture tiles and yells "BINGO!".
