

# Flip-Pix!

Game Category: Card/Strategy and Collect  
Competitive

Ages 6+

Playing time: 15 minutes

2-6 players

Reading skills required to play: Letters and  
letter sounds

Be the first player to match all the pictures on your cards with the letters on the centre cards. In Flip-Pix, players race to match the first letter sound of their pictures with letters written on the face-up card. But watch out, whenever someone has a match, they will yell out the name of the picture and then flip over their card so there is a new letter in the middle. Everyone must now match one of their pictures to the letter on this new card. The player who matches all their cards wins! For an extra challenge, flip between picture and letter cards whenever a match is made! Or you can play it the other way round, and match the first letter sound of the pictures in the centre to letters among your cards.
