

Quick Start Instructions

Food Truck Fiasco (2-4 players)

How to play:

1. Place the game box in the middle of all players and give each player a placemat board. Scatter the food pieces inside of the game box in the plastic holders.
2. Taking turns, players spin the arrow spinner and use the squeezer to take a food piece. What is the arrow pointing at?
 - **A shape?** Find a food piece with the matching shape and place it on your placemat board. For example, the triangle shape matches the pizza slice!
 - **Chef's surprise?** This piece has 4 shapes. Place any food piece with one of these shapes, such as the egg, on your placemat board!
 - **Fly in your soup?** Yuck! Take one food piece off your placemat board and put it back into the box.
 - **Splat?** Oh no! You slipped on a banana peel! Your turn is skipped for this round.
 - **Cat's paw grab?** You get to steal a food piece from another player!
3. Whoever fills their placemat first with all of the five food pieces of different shapes wins the game!
