

Quick Start Instructions

Ghost Blitz (2-8 players)

This is a game that can be played in many ways.

Setup:

- Shuffle the cards and place them face down in the center of the play area where all players can reach them. This is the **draw pile**.
- Place the 5 **game pieces** in a circle around the draw pile.
- **Pay attention** to the colour of each game piece as this will be important when playing the game.

How to Play:

- All players are racing to grab the correct game piece based on what's on a card to win the most cards by the end of the game.
- **Flip over** the top card from the draw pile so everyone can see it. Look at the items carefully on the card. Do you see...
 - **One item that exactly matches the colour of a game piece and what it is?**
 - In the 1st picture notice that there is a red chair that matches the red chair piece – so you should grab it!
 - **An item and colour missing of one of the game pieces?**
 - This is trickier to figure out! In the 2nd picture notice that there is not a mouse nor the colour grey on the card, so you should grab the grey mouse piece!
- Be careful and **pay attention**! Quickly be the first player to grab the correct game piece from the play area. **Remember** you're either looking for the same piece with the same colour or the piece and colour that are missing from the card.
 - Did you grab the right piece? Take the card and place it face up in front of you, this is your **reward pile**.
- You cannot share game pieces with another player and there is always only 1 right piece per card.
- Return all pieces to the center of the play area before starting the next turn.
- Keep flipping the top card and grabbing the right piece as fast as you can until you have run out of cards in the draw pile.

Game End:

- When the draw pile is empty, the player with the most cards in their reward pile wins!
