

Quick Start Instructions

Go Fish! (2-6 players)

How to play:

1. Each player gets a pile of **7 cards** face-down. If there are more than 4 players, each player gets **5 cards**. The rest of the cards go face down in a pile in the middle of the table.
2. The first player looks at their cards and can **ask** any other player if they have any cards of a **specific number** (for example, 2) or by **name** (for example, lobster). **You can only ask for cards if you already have one of those cards.** If the other player has any of these cards, they must give them **all** to the player who asked.
3. If the player who was asked doesn't have any of that card, they can tell the asker to **"Go Fish!"**. The asker then picks up one new card from the pile in the middle.
4. Once a player gets **4 cards of a kind**, they must put that pile of cards out in front of them so the other players can see them.
5. The game ends when a player has no cards left in their hand or the draw pile in the middle runs out. Whoever collected the most sets of 4 cards wins!
