

Quick Start Instructions

Here, Fishy, Fishy! (1-4 players)

How to play:

1. Place all of the 6 sea animals in the bottom of the “sea” (the bottom of the box) with the magnet side up. Place this in the center of all players.
2. Give each player a puzzle board. Beside the sea, place the fishing rod, the dice, and the pile of water toy pieces.
3. The first player rolls the dice and then fishes for the sea animal that matches the colour on the dice.
 - But before you start, decide as a group what you want to do when someone rolls the **silver fish** on the die and catches it, because there is no matching silver toy piece. Will it just be fun to catch? Or do you want to make a rule that you can choose any toy piece you still need?
4. What colour sea animal did you catch?
 - A **matching** coloured animal to the die? Great job! Find the toy piece with the same colour and of the same colour and put it in your puzzle board.
 - If you already have that colour in your board, then, sorry, you can’t take a toy piece.
 - If it’s the silver fish, go by the rule you decided
 - A **non-matching** coloured animal to the die? That’s too bad, you don’t get to take a toy piece!
5. Before the next player takes their turn, remember to put the sea animal you caught back into the sea!
6. The next person takes their turn. The person who fills their puzzle board first, or has the most pieces by the end of the game, wins!
