strategies

Fill your bookshelf with the perfect arrangement of colourful tiles in a race to complete your bookshelf display. The tiles include fun items such as cats, plants, trophies, and pictures, in addition to books. In My Shelfie, players take turns selecting tiles from a shared board and dropping them into columns on their personal bookshelf, aiming to complete personal and common goals related to the arrangement of certain tiles in the bookshelf. But be careful because once you've placed a tile, it cannot be moved, and other players might snatch the combination of tiles you need before your next turn. You can score points by completing personal and common goals, matching adjacent tiles by type or colour, and filling specific shelf patterns. The player with the most points at the end of the game when all the goals are totalled up wins the title of top shelf curator!
