2 players

No reading required to play

No math required to play

Time to learn: 10-15 minutes

Strategy level:   
1 goal/strategy      2-3 goals/strategies      4+ goals/strategies

For those looking for a short chess-like game, Onitama is your pick! In Onitama, you will move your 4 pawns and 1 Master across the board using one of 5 cards that show different moves and rotate position on every turn in the game. (The game comes with more move cards, but only 5 are used in any one game allowing different game play each time.) This means that all 5 moves possible are always in view for each player. On every turn, only 2 cards in front of a player can be used from which to move a piece. After a player has moved their piece, then all 5 cards rotate one space clockwise. Capture your opponent's Master or move your Master into their starting spot to win!
