

Quick Tips (use along with the original instructions)

Pizza Party (2 players*)

This is a game that can be played in many ways.

* Feel free to make up your own rules and versions for more than 2 players!

Setup:

- Each player takes a set of 5 dice.
- Shuffle the slice cards and give 1 card to each player face down.
- The remaining slice cards will be used as the draw pile.

How to Play:

- You are racing to complete a full round pizza of 6 slices.
 - Count 1-2-3 together and then flip over your pizza cards.
 - You all begin to **roll all your dice!** Do any of your dice...
 - **Match a topping on your pizza?** Put your dice on that topping.
 - **Don't match any topping?** Re-roll all the unmatched dice to see if you can get more topping matches.
- Keep re-rolling as fast as you can and putting dice that match your toppings until you have filled all the toppings on your pizza slice.
- When you have completed a slice, remove the dice, and begin to build your 6-piece pizza with that card off to the side.
- Take a new pizza card from the draw pile and begin again to roll and try to match all the toppings as fast as you can to add it to your pizza!

Game End:

- The first player to build a 6-piece pizza, wins!
