strategies

Score points by brewing magical potions using different coloured marbles and causing marble collisions! In Potion Explosion, you will pick one marble to remove from the dispenser on your turn. If this causes 2+ marbles of the same colour to collide, you get to collect these marble ingredients for your potion recipes too! Complete the potions in your brewing area by collecting the exact combination of coloured marbles on their recipe cards! You can then empty completed and full potions to activate their magical effects! Different potions will provide you with different effects such as taking extra marbles of different colours or change the colour of a marble. Score extra points by completing 5 different potions or 3 potions of the same type. The player with the most points from completed potions wins! For each game, you can choose the different potions you want to use to make each game different!
