In this game, players use their length guessing skills to try to get their rabbit to the island with the 1st, 2nd and 3rd prize carrots before another rabbit gets there first! Players roll a coloured dice to get a bridge piece of a certain colour and length. Then, you need to guess how far away you should place your stone piece from where your rabbit is now so that it doesn't fall in the water and your rabbit can hop across the bridge to the next stone. Who will get to the island first and be able to munch on the biggest carrot?
