No reading required

Solo play possible

Work together to help all the animals get to the barn before it rains! In Rainy Ranch, you will take turns rolling the animal dice or the colour dice and matching the animals to their spots in the barn. But watch out– if you roll a raindrop, you will have to add one raindrop to the cloud. If you get all the animals to the barn before the rain cloud fills up, you all win and your animals will stay warm and dry! If not, you can try again!
