Create paths with the best foods to help the animals in your forest prepare for winter! In Savernake Forest, you will need to strategically place animal cards and path cards with food in your 4×4 forest. Each animal can store specific amounts and types of different foods, so try to pick cards that will help your animals score the most points! Depending on which animal you take a card from, you can also collect tokens that let you store more food, increase a food's value, or go first next round! When everyone has completed their 4×4 forest, the player with the most points wins!
