

Snail Sprint

Game Category: Race and Strategy

Competitive

Ages 5+

Playing time: 15 minutes

2-4 players

Solo play possible

No reading required

(Basic addition skills to score, but not necessary)

In this game, 6 different coloured snails are racing each other to reach the podium for first, second and third place! At the start of the game, each player receives a race card showing which 3 snails they are trying to get to the podium. Players take turns rolling the dice and helping the snails move across (and up and down!) the game board. Along the way, snails can change the colour of the spaces they land on and even stack on top of each other. The player that has the most of their snails on the podium (with the most points if you're adding and keeping score) wins! The game board has an easier and harder side for playing!
