

Quick Start Instructions

Spot It! Connect (2-8 players)

Setup:

- **Sort the cards by their colour** (pink, orange, green, blue and black).
- The **black cards** are starting cards. Place 1 of them in the center of the table. Set the rest of the black cards to the side, picture-side down - you won't need them until the next round.
- Give a **deck of cards of one colour** to each player. (If there are more than 3 players, the instructions recommend forming teams. If you're playing as a team, divide your colour deck evenly among teammates.)
- Each player should leave their deck of cards **face down** in front of them.

How to Play (the game is played the same whether you're playing in teams or not):

- All players are racing to match a symbol on their card with any card on the table to win the round by **getting 4 of their same-coloured cards connected in a line!**
 - Cards can be connected in a line by row, column or on a diagonal.
- When a player finds a matching symbol (a symbol that appears on both their own card and the face up card), they **say out loud what the symbol is** (or **point** to it if better suited to skill levels), and can place their card along **any** one of the six sides of the matching card.
 - Players cannot play a card on top of another card, only on one of the sides.
- **Pay attention to the other player's cards!** If you can block them from connecting 4 of their cards, by matching one of your cards to theirs, you can!
- Remember, if a card has a matching symbol with any other card that has been played, it be placed on **any of the 6 sides** of the matching card

Game End:

- The game ends as soon as **4 cards of the same colour are in a line** – horizontally, vertically or on a diagonal! (No curving lines!)
- Restart a new round by having everyone pick up their deck of coloured cards and begin by turning over the next starting black card from the black deck. Play as many rounds as you wish or until someone wins a certain number of rounds!
