Playing time: 30 minutes

1-4 players

Reading required to play

Math required to play

- ☒ Single digit addition
- ☒ Number recognition up to 8

Time to learn: 10-15 minutes

Strategy level: 

Push your luck rolling dice to match and place spots on your dogs! In Spots, you will need to follow the instructions on 6 trick cards and try to roll dice that match the spots on your dog cards. Different tricks allow you to roll and reroll different numbers of dice under different conditions. You also can earn and spend bone treats to reroll all your dice. If you can't place your dice on your dog cards, you will have to bury them in your yard. But watch out, because if you take a risk and have to bury more than 7 spots, your turn ends and you lose all your dice! Once you've completed all the spots on a dog with matching dice, it now go into your score pile. The first player to score 6 dog cards wins! For each game, you can choose a different set of 6 trick cards, making each game different!
