Work together to help your traveller reach their happy ending before the ink well runs out! In Stories of the Three Coins, you will take turns flipping over cards and placing magic coins to guess which card the other players will choose to continue the story. If the group picks a card you didn't expect, the inkwell starts to empty! If you still have enough ink to reach the final card, you all win and your traveller reaches their happy ending! But if the ink runs out early, your story ends, and the traveller does not reach their goal!
