

# Quick Start Instructions

## UNO (2- 4 players)

How to play:

1. Mix up all the cards and **give every player 7 cards**. Put the rest in a pile upside down. This is the **draw pile** you will **take** cards from. Then, take the top card on this pile, turn it over and put it beside the pile. This is the **give away** pile. Now the game can start!

2. Take turns. On your turn, you want to try to get rid of a card on the give away pile. You can do this in 3 ways:

- I. Put down a card that matches the **colour** OR **number** of the top card.

- II. Put down a **special** card that matches the **colour**:

- **+2 card**: The person next to you must pick up 2 cards and skip their turn.
- **Reverse card** ↺: The direction changes and the person who played right before you is the next to play. Continue in this direction.
- **Skip turn** ⊘: The next player skips their turn.

- III. You can always put a **wild** card on anything.

- **Wild card**: The person to play this card can choose a new colour.
- **+4 Wild card**: The person who played this card can choose a new colour. The next player must pick up four cards and skip their turn.

3. If you don't have a matching card, take one from the **draw** pile. If it matches, you can still give it away. If not, add it to your hand. Now it's the next player's turn.

4. Whenever you have only **one** card left, **shout UNO!**

5. The first person who has **no cards left**, or who has the fewest cards, has won!
