

Quick Start Instructions

Hanna Honeybee (1-4 players)

(A cooperative game where you work together!)

How to play:

1. Take the game materials out from the box and fold the beehive back in to make it stand up. Place the 10 tile pieces flower-side up. Place the honey pot near the beehive.

2. Roll the die. What do you see?

If you see a **colour**, find a flower that matches the colour. Then:

- Put Hanna Honeybee on the flower.
- “Fly” Hanna and the flower to the beehive and insert the flower tile, flower-side up, into the upper slot.
- See the tile reappear below – honey side up!
- Place the honey tile on the honeypot board.

If you see a **wilted, black flower** on the dice then a flower has died and has no more nectar. Take one of the flowers and place it to the side out of the game.

3. See if you can fill your honey pot with 6 honey tiles before Hanna Honeybee runs out of flowers to get nectar from! If you don't fill it, you can always try again!
