

## Quick Start Instructions

## Fairytale Spin-to-Play (2–4 players)

## How to play:

1. Use the inside of the box lid to make piles of all the different pieces: heroes, bad guys, magic helpers, transportation, magic objects, and treasures. Decide if you want to each choose a background place, or also spin for the place.
2. Take turns spinning the spinner. When it lands on a category, you can choose 1 of the items in this category. If you have a place board, you can place your items on it. Then the next player goes.
3. If you land on a category you already have, you can trade in for a different item in this category if you want. Otherwise, you just pass on your turn and the next player goes. If you land on "Lose a Turn" you must also pass on your turn and the next player goes.
4. The player who first collects all 6 items on their place card wins and gets to tell their story first! Then everyone can tell their story as they get their six items. If play time runs out, you can each tell a very quick and short story with the items you have!
