

Quick Start Instructions

Hamster Clan (1–4 players)

(a co-operative game where you work together!)

How to play:

1. Place the **wagon**, **elevator**, **gondola**, and **hamster wheel** on their spots in the board. Place all the leaves on the tree, and have each player place one **carrot**, **wheat** and **clover** food tile on each of their matching fields.
2. Each player chooses a **hamster** and puts it in the living room. Put the **hedgehog** on the side of the board somewhere where everyone can reach it.
3. Players take turns rolling the dice and moving their hamster the number of spaces rolled. (The elevator, wagon, gondola, wheel, clover and wheat fields all count as one space!)
4. If a player lands on a **field with food**, they take one food tile and place it in front of them (you can only have one food tile at a time!)
5. Players with food tiles must try to bring their food to the right storeroom. If you get to a room where another hamster is, you can give your food to that hamster if that helps get food to the storerooms faster!
6. You can store the food once you reach the right storeroom.
7. After each round, when all players have had a turn, **one leaf is taken off the tree and put with the hedgehog**.
8. If you can all get all the food tiles in the right storerooms before all the leaves are with hedgehog, you have won!
