

Quick Start Instructions

I Never Forget a Face! (2-4 players)

How to play:

1. Turn all the cards face down in front of you.
2. Take turns flipping over 2 cards at a time so that everyone can see them. If the 2 cards:
 - a. **Match:** You get to keep them.
 - b. **Don't match:** Flip them back over.
3. Keep taking turns until all the cards are gone.
4. Count up your pairs – the player with the most pairs is the winner!

Alternative Lotto style game (for 2 or 4 players):

1. First, separate out 1 full set of 24 face cards and divide them evenly between all players. For example, with 4 players, each player would get 6 faces. Arrange these in front of you. This is now the set of faces you are looking for.
2. Turn the remaining full set of 24 face cards face down in front of all players.
3. Take turns flipping over 1 card at a time. If it matches a face in your set, put it on that face. If it doesn't put it back.
4. The first player to match all of the faces in their set, or whoever gets closest, wins!
