- **Depth** - 1.5 units in the same subject where either:
  - (a) at least 0.5 unit is 3xx or higher, or
  - (b) all three form a prerequisite chain.

Courses for breadth can also be used for depth.

**Write the non-math elective units from above that you will use for depth.**

- 
- 
- 

- Seven (regular) or eight (co-op) terms enrolled in at least three courses totaling 1.5 units
- No more than 2.0 units of failed courses
- No more than 5.0 units of unusable course attempts (failures and repeats of passed courses)
- CS major average of 60% or higher
- Cumulative average of 60% or higher
- Co-op requirements met, if applicable, including PD 1, PD 11, PD 10, and a minimum of two other PD courses
1 Communication List I: At least 60% in one of COMMST 100, COMMST 223, EMLS 101R, EMLS 102R, EMLS/ENGL 129R, ENGL 109.

2 Communication List II: One of COMMST 225, COMMST 227, COMMST 228, EMLS 103R, EMLS 104R, EMLS 110R, ENGL 101B, ENGL 108B, ENGL 108D, ENGL 119, ENGL 208B, ENGL 209, ENGL 210E, ENGL 210F, ENGL 378/MTHEL 300

3 Special topics courses (e.g. CS 489) may sometimes be appropriate for List A; interested students should see a CS advisor for confirmation.

4 You must meet the pre-requisites before taking any course in List A. In some cases, this means that you might need to take one or more additional courses beyond those on this checklist. Refer to the UG calendar or talk to the instructor/advisor of that course regarding what prerequisites you may need and/or whether you can be overridden into their course if you already have an equivalent. Engineering courses listed here cannot be used towards non-math electives.

5 One of CS 480 and CS 485 is required. If both courses are taken, then one of them can count as one of 'Choose four courses below' from List A.

Disclaimer: This checklist is a handy tool, but it is not a substitute for the official degree regulations. You may complete the checklist and ask a CS advisor to review it, but the student is ultimately responsible for ensuring that they have met their degree requirements. If there is a question of interpretation or a discrepancy, the University Calendar always takes precedence.
