Supervisor's Comments (required):

From page 9 of *A Guide for Graduate Research and Supervision at the University of Waterloo 2011*:

The supervisor provides their evaluation of student progress to the department once a year or more often if required. The report should clearly indicate the status of the student's progress (i.e., satisfactory/unsatisfactory /remedial action plan). Where the supervisor feels that the student will have serious difficulties finishing the program, the supervisor, in consultation with the Advisory Committee as appropriate, will inform in writing, both the student and the Graduate Officer of the nature of the problem(s), suggested remedies and may recommend withdrawal from the program.

The student's progress is: Satisfactory Unsatisfactory

Please write additional comments below; if the student's progress has been unsatisfactory, your comments should include a remedial plan of action for the student to take to bring their progress up to satisfactory.
