

TECHNOVATION GIRLS WATERLOO

OUR VISION

Inspire girls and families to be leaders and problem solvers in their lives and their community

130K

**Young people
and parents
served to-date
worldwide**

**Volunteers
trained as
mentors and
program
facilitators**

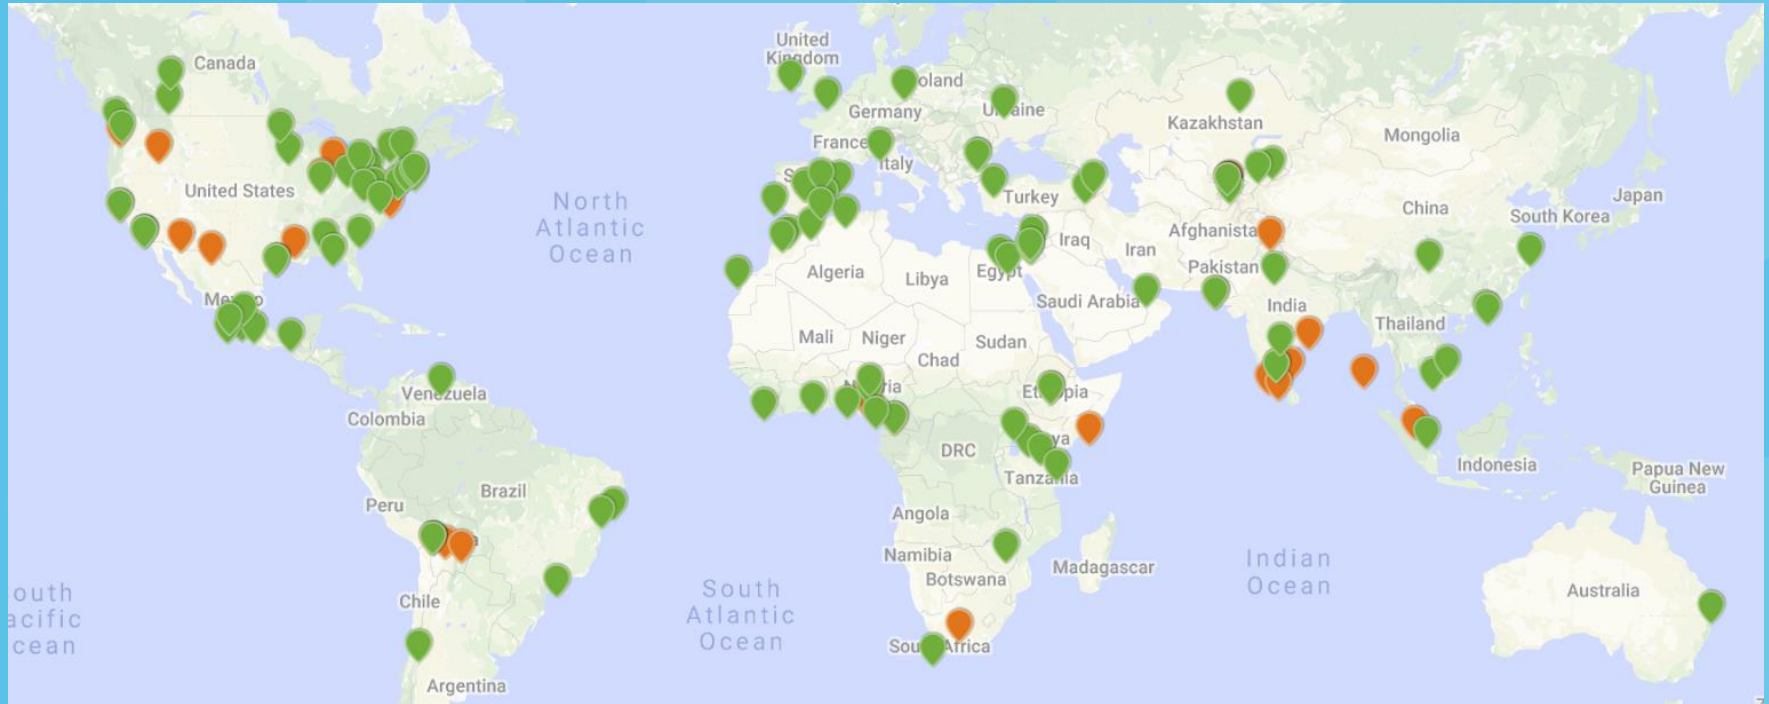

14K

TECHNOVATION Girls

We solve problems using technology. Working in teams, girls find a problem in their community and build a mobile app to help solve it. Along the way they develop their collaboration, problem solving, and leadership skills.

WE ARE CHANGING THE WORLD THROUGH TECHNOLOGY

TECHNOVATION Girls Waterloo

- Started running in 2017
- Run by Women in Computer Science at the University of Waterloo
- Our students have created apps that:
 - Help to locate nearby public water fountains
 - Track needs of victims of natural disasters
 - Do other amazing things!
- In the past we've worked with community partners such as SAP Labs, Shopify, Axonify, Terminal.io, D2L and many more!

I am

 **TECHNOVATION**

80%

80% of Technovation Girls students demonstrate a basic understanding of programming

91%

91% of Technovation Families parents believe their child developed a sustained interest in AI

83%

increased creativity in the
workplace

70%

70% of mentors said the
experience improved
their relationship with
their company

 **TECHNOVATION**
Girls

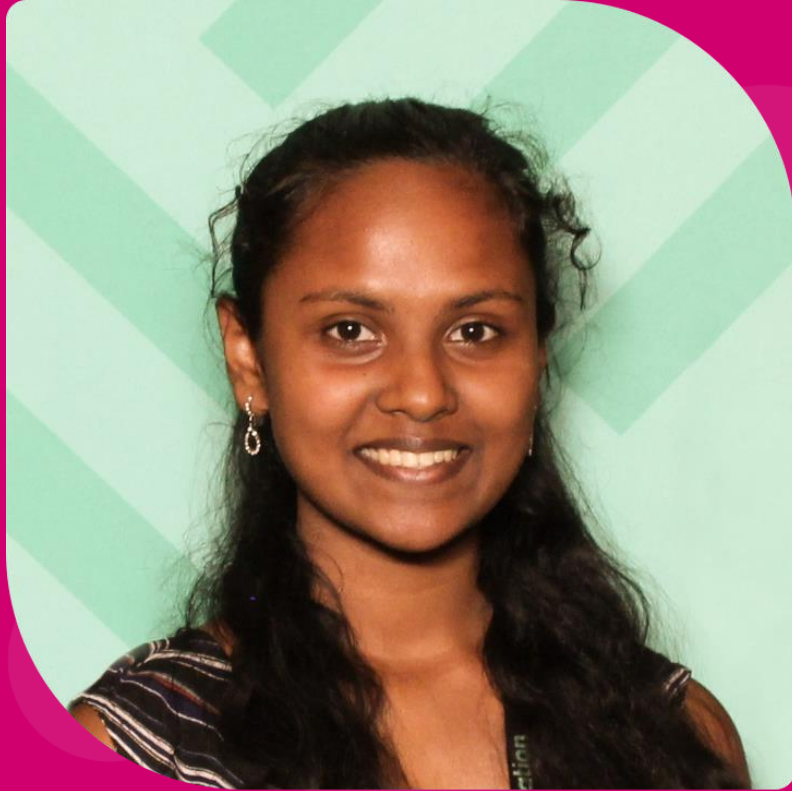

“It’s good to see girls like these, who are very talented and skilled, who start from a very young age and come up with such global level ideas.”

Ram S.

Technovation Girls Mentor, Adobe

“I’m going to change the world by sharing my voice with every woman so we can make the world better, together.”

Harini A.

Technovation Girls Finalist, 2018

**“It’s important for families
in my community to learn
about AI technology,
because families should
feel that they have the
capability to make
differences in the world.”**

Sheila B.
Technovation Community Partner
