MarkBox

Stefan Idziak, Mirko Vucicevich

- Randomized multiple choice test maker/marker
- Return test electronically to students in a private, secure manner with feedback
- Records marks in a spreadsheet quickly

- Long answer, hand-marked test return and grade recording

Academic integrity: Every student receives a different test (same questions, answers, random order).

Accuracy of grading: Student sees copy of their multiple choice sheet, clearly showing which answers were machine selected, which were correct, which were incorrect.

Ease of use: Faster than scantron cards, easier to correct errors.

Electronic return of hand-marked tests with feedback
