Mirko Vucicevich

Background

- ❏ Concept was for an survey reporting tool for admin/faculty and students based off Scantron data.

- ❏ Paper survey were taking weeks to process into reports
- ❏ Online gives flexibility of questions/reporting and added security (no misplaced surveys)

- ❏ Designed for real time collection and reporting

- ❏ Piloted in Fall 2013 with 20 classes/1500 students.
- ❏ Return rate ~60% vs 50% for Scantron

Challenges

- ❏ Development framework
- ❏ Psychology of form filling
- ❏ Accessibility
- ❏ Mobile devices
- ❏ Data Visualization
- ❏ Acceptance by faculty and students

Moving Forward

- ❏ Application separate from backend data

- ❏ Authenticated data access using common a interface standard like JSON
