Class TTh 1130h – 1250h  B2-350

Instructor and T.A. Information
Instructor: Professor Lori J Curtis
Office: HH 240
Office Phone: 519-888-4567 X33162
Office Hours: by appointment
Email: ljcurtis@uwaterloo.ca
T.A.: there is no T.A.

Assistance: this course has the assistance of the following people:
TBA, Writing Centre, SCH, X , @uwaterloo.ca
Sandra Keys, Library, LIB 224, X32279, skeys@uwaterloo.ca

Website: course outline is available online on ECON website
https://uwaterloo.ca/economics/undergraduate/courses/outlines-0#courses-400 and LEARN
course website http://learn.uwaterloo.ca (registered students only).

Course Description
This course helps students learn the skills of scholarly research and communication needed for
graduate schools or the work place. Unlike the traditional lecture format, this course provides
students with an interactive classroom environment to develop critical thinking skills, research
methodology, economic analysis, library tools, data handling, peer review, interpersonal
communications, and work ethics. Previous experience in writing term papers is not required.
Students must find a faculty supervisor who agrees to work with them on a research topic of
mutual interest.

Course Goals and Learning Outcomes
A. Research Experience
Students are provided the opportunity to spend a term working with a supervisor on a topic of
mutual interest. The research experience is different from that experienced in other courses as
students receive guidance and assistance from their instructor, supervisor, and resource partners
while working on their research paper continually over the term. Students are required to submit
work in progress regularly throughout the term to maintain continuity. Instructor and peer review
is an important aspect of the course.

B. Time management, Assignment due dates and Project Completion
A class goal is to learn time management skills, including completing assignments on time. Due
dates are firm (assignment extensions are very rarely given and are not given for final essay).
Assignments are to be uploaded to LEARN by 1100h on the due date. A printed copy is to be
handed in at the beginning of class (1130h) on the due date. The final essay must be submitted
to the drop box on learn and to your supervisor in the format they prefer by the last day of
classes - December 3, 2019 at 1200h (noon).
If for any reason the essay is not completed by the due date, the work completed as of the due date must be submitted. Any documentation supporting the incomplete work (e.g., VOI form) must be submitted to the instructor as soon as possible (must be within 3 business days). Given students work continually throughout the term, one or two days of illness near the end of the term will not be accepted as a reason for an extension. The work completed up to the due date must be submitted for marking.

A paper submitted without regular supervisor contact, assignment completion, class attendance, and/or peer review will receive a mark of zero, class activity mark will also reflect lack of participation. Submission of a research paper without interaction with the class and instructor is not enough to pass the course.

Please Note: Instructions on assignments and the format and procedure to submit the final essay will be provided in a separate document posted on LEARN. Assignments/essays that do not follow these instructions will not be accepted. To achieve the goals of this course, students must continually work on their assignments and essay. The project demands discipline and hard work throughout the term. The advice from students of previous classes is short and simple: “start early, start early, and start early.”

C. Course Requirements and Assessment

The Interactive Classroom Environment
Figure 1. Hybrid Interactive Classroom Environment for Senior Honours Essay Writing

Figure 1 shows the structure of the cooperatively designed interactive classroom environment used in this class. Students learn from writing their own papers as well as reviewing papers written by their colleagues. This experience is unique in the traditional exam-based undergraduate curriculum. All students, regardless of writing experience, can benefit from this model if they participate fully.

1. The course instructor is responsible for the day-to-day administration of class activities including enrollment, attendance, course work, lectures, assessments, (and discipline if necessary). The instructor also oversees the coordination of supervisors, student peers, library and writing resources, and other units on campus.

2. The supervisor gives guidance and expert advice through the entire project—from selecting a suitable topic to writing up the research findings. Students, however, bear the responsibility for their project. They must take the initiative to maintain regular contact with supervisors during the term and document contact in progress reports. Supervisors give advice, guidance, and comments on student work but do not do the work for students. This apprenticeship helps students learn to work independently while still under a supervisor which is the situation in academic and most work environments.

3. Peer review help students learn to work with their colleagues. All students are senior honours (mathematical) economics majors with comparable academic background. The uniformity makes the class a good interactive environment for students to work with their peers by reviewing their peers' work and having their own work reviewed. Note: research papers completed without regular class attendance, participation in class exercises, and meetings with their supervisor will not be accepted and will be given a zero mark.

4. The Economics’ librarian liaison provides support with library resources and references. Early in the term, there will be instructions on popular research tools and databases, e.g., EconLit, Statistics Canada, RefWorks. The librarian can also be consulted on special reference issues beyond those available as online library resources. The librarian should be consulted early in the term. She will be unable to assist students to the best of her ability if requests are too late in the term.

5. The Writing and Communication Centre (WCC) ([https://uwaterloo.ca/writing-and-communication-centre/](https://uwaterloo.ca/writing-and-communication-centre/)) provides writing supports including workshops, consultation, and drop-ins. Students must book one (1) 50-minute one-on-one appointment in September, two (2) 50-minute one-on-one appointments in October, and (2) 50-minute one-on-one appointments in November (see course timetable) to discuss writing progress in terms of basic grammar, using and documenting research, organizing and structuring papers, and revising for clarity and coherence. This helps students to see their work as readers would and to learn editing skills and strategies. Book early as there are many students in the class.
6. Three support units are available on campus to address the following special topics:
(a) The Centre of Teaching Excellence (CTE) provides supports for the LEARN online environment. Course materials will be posted on LEARN during the term – check often. LEARN may occasionally be down unexpectedly, students are advised to download course materials as soon as possible.

(b) The Office of Research Ethics (ORE) ([https://uwaterloo.ca/research/](https://uwaterloo.ca/research/)) provides guidance on research ethics and integrity which are extremely important in research.

(c) The Office of Academic Integrity ([https://uwaterloo.ca/academic-integrity/](https://uwaterloo.ca/academic-integrity/)) provides guidance on academic integrity which is relevant across students’ entire career path.

Course Texts (see Course Readings Document on LEARN).

**Expectations of Class Participation**

1. Fully attend all class meetings, e.g., staying for the full class period with full attention to ongoing class activities. Students are responsible for all class activities and course materials, whether they attend classes or not. Examples of failure to fully attend classes are: arriving late or leaving early; not fully participating in class activities, e.g., working on other courses, inappropriate use of computers and electronic devices; inappropriate treatment of peers.

2. Fully participate in all class activities, e.g., discussions, peer reviews, exercises, Flex Lab sessions, visits to the Writing Centre, guest presentations.

3. Submit assignments on-time (see course schedule for due dates). **Electronic copies submitted on LEARN by 1100h on the due date. Hard copies handed in at the beginning of class on the due date.** Assignments submitted online without submitting hard copies in class or without author participation in peer review session of the assignment will be given a mark of zero.

4. Given the interactive nature of the class activities, there will be no substitutions or weight transfers for missed classes and/or course activities.

5. Time-conflict course overrides will not be given.
6. Students missing several classes or submissions will be required to attend an interview with the instructor to discuss the absences and the ramifications of the missed classes. Failure to attend the interview will result in a zero grade for class participation and thus a failing grade for the course.

7. It is worth repeating that missed interactive class activities cannot be recreated or substituted or transferred. Submitting an essay at the end of the term without regular class participation during the term is not enough to pass the course. An essay written without regular faculty supervision, peer reviews, class exercises, class attendance, etc. will not be accepted and will be given a mark of zero.

**Expectations of Regular Contacts with Supervisors**

Students are expected to maintain regular contact with their supervisor throughout the term to progress through their research in a professional manner as if in the work place or graduate school.

Expectations of student interactions with supervisors:
1. Students work out a mutually agreeable regular meeting schedule with supervisors (normally once a week) and follow it through. Occasional deviations from that schedule (e.g., illness, midterms, job interview) should be discussed with supervisor and agreed upon in advance.

2. Given the twelve-week term and busy schedules of both supervisors and students, regularly scheduled contact is the key to success in this course.

3. In case of lack of regular contact with supervisors, substantial penalties (e.g., starting at 10 to 25 percentage points will be deducted from term mark) will be applied to final mark. In more serious cases (e.g., month-long absence), the final essay will not be accepted, and a course mark of ‘F’ will be assigned.

4. Face-to-face is usually the primary meeting format. Other forms (telephone, email, skype) may be used on occasion if there is agreement between supervisor and student or if the supervisor prefers.

5. Students must maintain a record of all meetings and contacts with supervisors for the entire term. The record must be signed by the supervisor and submitted when requested and together with the final essay. Failure to keep or submit a proper log will result in penalties for lack of supervisor contact (see #3).

**Course Policies**

**Information on Plagiarism Detection**

Turnitin.com: Text matching software (Turnitin®) will be used in this course as a learning tool for students and to screen assignments. This is being done to verify all work is original and sources are properly referenced. As per UW policy, students will be given an alternate option if they do not wish to have their assignment screened by Turnitin®. The alternate option available
in this course is an oral presentation of the topic and materials referenced to demonstrate personal knowledge of the material and references used.

Electronic Device Policy
Devices may be used for related class activities only. Turn off all other electronic devices during class. Use of technology in class other than for class purposes will lead to substantial reduction in Class Activities’ Assessment. No photographs, audio recordings, or video recordings may be taken during class. An exception to this policy will be the poster session where pictures will be taken for the economics department’s website. If you do not wish your picture taken, please notify the instructor at least 2 weeks in advance of the poster session.

LEARN
No accommodations will be given for loss of LEARN access and academic consequences arising from administrative issues with the Registrar’s Office including course registration and fee arrangements.

Assignment Portfolio
Each student will maintain a portfolio of their work. Assignments will be submitted via the drop box in learn and must be printed and handed in at the beginning of class on the due date. Students must bring their portfolio to every class as peer review will be done routinely.

Late Work
As previously stated, deadlines for assignment submission on LEARN are 1100h (before class) on the due date which is clearly stated on the class and assignment schedule posted on LEARN. A printed copy must also be submitted at the beginning of class on the due date. Late submissions or submissions that are not part of the peer review receive a mark of zero.

As previously stated, if for any reason the essay is not completed by the due date, the work completed as of the due date must be submitted. Any documentation supporting the incomplete work (e.g., VOI form) must be submitted to the instructor as soon as possible (must be within 3 business days). Given students will work continually throughout the term, one or two days of illness near the end of the term will not be accepted as a reason for an extension. The work completed to date must be submitted to be marked.

A paper submitted without regular supervisor contact, assignment completion, class attendance, and/or peer review will receive a mark of zero, class activity mark will also reflect lack of participation. Submission of a research paper without interaction with the class and instructor is not enough to pass the course.

Class schedule
Assignment due dates
Class Readings
All Forms for the course including (but not limited to):
  Supervisor Form
  Midterm Progress Report Form
  WCC Forms

Institutional-required statements for undergraduate course outlines
Cross-listed course (requirement for all Arts courses)
Please note that a cross-listed course will count in all respective averages no matter under which
rubric it has been taken. For example, a PHIL/PSCI cross-list will count in a Philosophy major
average, even if the course was taken under the Political Science rubric.

Academic Integrity
In order to maintain a culture of academic integrity, members of the University of Waterloo are
expected to promote honesty, trust, fairness, respect and responsibility. Check the Office of
Academic Integrity website for more information.

Discipline
A student is expected to know what constitutes academic integrity to avoid committing an
academic offence, and to take responsibility for his/her actions. [Check the Office of Academic
Integrity for more information.] A student who is unsure whether an action constitutes an
offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about
“rules” for group work/collaboration should seek guidance from the course instructor, academic
advisor, or the undergraduate associate dean. For information on categories of offences and types
of penalties, students should refer to Policy 71, Student Discipline. For typical penalties,
check Guidelines for the Assessment of Penalties.

Grievance
A student who believes that a decision affecting some aspect of his/her university life has been
unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70, Student
Petitions and Grievances, Section 4. When in doubt, please be certain to contact the department’s
administrative assistant who will provide further assistance.

Appeals
A decision made or penalty imposed under Policy 70, Student Petitions and Grievances (other
than a petition) or Policy 71, Student Discipline may be appealed if there is a ground. A student
who believes he/she has a ground for an appeal should refer to Policy 72, Student Appeals.

Accommodation for Students with Disabilities
Note for students with disabilities: AccessAbility Services, located in Needles Hall, Room 1401,
collaborates with all academic departments to arrange appropriate accommodations for students
with disabilities without compromising the academic integrity of the curriculum. If you require
academic accommodations to lessen the impact of your disability, please register
with AccessAbility Services at the beginning of each academic term.

If you are using Turnitin® in your course

Turnitin.com and alternatives: Text matching software (Turnitin®) may be used to screen
assignments in this course. Turnitin® is used to verify that all materials and sources in
assignments are documented. Students' submissions are stored on a U.S. server, therefore students must be given an alternative (e.g., scaffolded assignment or annotated bibliography), if they are concerned about their privacy and/or security. Students will be given due notice, in the first week of the term and/or at the time assignment details are provided, about arrangements and alternatives for the use of Turnitin in this course.

It is the responsibility of the student to notify the instructor if they, in the first week of term or at the time assignment details are provided, wish to submit the alternate assignment.

Mental Health Support
All of us need a support system. The faculty and staff in Arts encourage students to seek out mental health support if they are needed.

On Campus
- Counselling Services: counselling.services@uwaterloo.ca / 519-888-4567 ext. 32655
- MATES: one-to-one peer support program offered by Federation of Students (FEDS) and Counselling Services
- Health Services Emergency service: located across the creek form Student Life Centre

Off campus, 24/7
- Good2Talk: Free confidential help line for post-secondary students. Phone: 1-866-925-5454
- Grand River Hospital: Emergency care for mental health crisis. Phone: 519-749-4300 ext. 6880
- Here 24/7: Mental Health and Crisis Service Team. Phone: 1-844-437-3247
- OK2BME: set of support services for lesbian, gay, bisexual, transgender or questioning teens in Waterloo. Phone: 519-884-0000 extension 213

Full details can be found online on the Faculty of Arts website
Download UWaterloo and regional mental health resources (PDF)
Download the WatSafe app to your phone to quickly access mental health support information

Territorial Acknowledgement
We acknowledge that we are living and working on the traditional territory of the Attawandaron (also known as Neutral), Anishinaabe and Haudenosaunee peoples. The University of Waterloo is situated on the Haldimand Tract, the land promised to the Six Nations that includes ten kilometres on each side of the Grand River.
For more information about the purpose of territorial acknowledgements, please see the CAUT Guide to Acknowledging Traditional Territory (PDF).

Academic freedom at the University of Waterloo Policy 33, Ethical Behaviour states, as one of its general principles (Section 1), “The University supports academic freedom for all members of the University community. Academic freedom carries with it the duty to use that freedom in a manner consistent with the scholarly obligation to base teaching and research on an honest and ethical quest for knowledge. In the context of this
policy, 'academic freedom' refers to academic activities, including teaching and scholarship, as is articulated in the principles set out in the Memorandum of Agreement between the FAUW and the University of Waterloo, 1998 (Article 6). The academic environment which fosters free debate may from time to time include the presentation or discussion of unpopular opinions or controversial material. Such material shall be dealt with as openly, respectfully and sensitively as possible.” This definition is repeated in Policies 70 and 71, and in the Memorandum of Agreement, Section 6.
