Course Description
This course considers how economic agents behave when faced with incomplete information. We will
develop the basic theory of choice under uncertainty and use it to examine markets in the context of
asymmetric information (when agents have different information from each other) as well as social
choice.

Course Goals and Learning Outcomes
This course is designed as a prep course for graduate work in economics. Strong mathematical skills are
required.

Required Text
• There is no required text for this course as the material will be based exclusively on lecture
  notes. However, these notes will not be made available, so class attendance is critical. For
  those who would like a textbook for supplementary reading, two good texts are

Assignments
For your assignments, you will be asked to solve mathematical problems pertaining to the material covered in the lectures.

Midterm Exam
Your midterm exam will be comprised of problems as in the assignments, true/false questions and definitions.

Final Exam
Your final exam will be the same format as the midterms: problems as in the assignments, true/false questions and definitions.

Course Outline
The table below represents how I expect the course will proceed. We may take more or less time on any topic, as appropriate.

Late Work
Assignments are due by the end of class on the due date given. Late assignments received less than 24 hours after the deadline will be given a 25% penalty. Assignments received after 24 hours will not be marked.

No make-up tests will be provided for the midterm exam. Students who do not have a relevant medical certificate or other documentation will receive a mark of zero. Students with a valid documented reason for missing the exam will have the weight of the midterm added to their final.

Electronic Device Policy
It is acceptable for students to bring laptops to class, especially for the purposes of taking notes. Please make sure your cell phones are on silent, however.
Attendance Policy
While the recommended textbooks do cover the material of this course, they do so in a manner that is different (and complementary) to the lectures. The assignments and exams will be based on the material as it is presented in the lectures. As such, students are strongly encouraged to attend all classes and take good notes.

Cross-listed course
Please note that a cross-listed course will count in all respective averages no matter under which rubric it has been taken. For example, a PHIL/PSCI cross-list will count in a Philosophy major average, even if the course was taken under the Political Science rubric.

Academic Integrity
Academic Integrity: In order to maintain a culture of academic integrity, members of the University of Waterloo are expected to promote honesty, trust, fairness, respect and responsibility. See the UWaterloo Academic Integrity webpage and the Arts Academic Integrity webpage for more information.

Discipline: A student is expected to know what constitutes academic integrity, to avoid committing academic offences, and to take responsibility for his/her actions. A student who is unsure whether an action constitutes an offence, or who needs help in learning how to avoid offences (e.g., plagiarism, cheating) or about “rules” for group work/collaboration should seek guidance from the course professor, academic advisor, or the Undergraduate Associate Dean. When misconduct has been found to have occurred, disciplinary penalties will be imposed under Policy 71 – Student Discipline. For information on categories of offenses and types of penalties, students should refer to Policy 71 - Student Discipline. For typical penalties check Guidelines for the Assessment of Penalties.

Grievance: A student who believes that a decision affecting some aspect of his/her university life has been unfair or unreasonable may have grounds for initiating a grievance. Read Policy 70 - Student Petitions and Grievances, Section 4. When in doubt, please be certain to contact the department’s administrative assistant who will provide further assistance.

Appeals: A decision made or penalty imposed under Policy 70 - Student Petitions and Grievances (other than a petition) or Policy 71 - Student Discipline may be appealed if there is a ground. A student who believes he/she has a ground for an appeal should refer to Policy 72 - Student Appeals.

Accommodation for Students with Disabilities
Note for students with disabilities: The AccessAbility Services office, located on the first floor of the Needles Hall extension (1401), collaborates with all academic departments to arrange appropriate accommodations for students with disabilities without compromising the academic integrity of the curriculum. If you require academic accommodations to lessen the impact of your disability, please register with the AS office at the beginning of each academic term.
**Mental Health Support**
All of us need a support system. The faculty and staff in Arts encourage students to seek out mental health supports if they are needed.
