

Fall 2023 TA Job Posting for ECON 371-LEC 002 Thursdays 6:30-9:30

Please give a brief description of the course content or a link to the course outline:

The course explores decisions faced by managers of firms. In particular, decision-makers must determine which long-term real investment opportunities to exploit. Once undertaken, managers must decide how to finance the projects, for example, by debt or equity. The course develops both the conceptual framework and the tools required for these decisions. The course assumes prior familiarity with probability, expected values, and variance.

Any necessary knowledge or skills needed:

Topics that TA is expected to have knowledge are:

- **Time Value of Money, Annuities, Perpetuities, and Growing Annuities.**
- **Application of Time Value of Money, Mortgages,**
- **Bonds and Bond Pricing**
- **Stock Pricing models**
- **Capital Budgeting**

Please fill out this chart as closely as you can for the TA duties and hours you predict the course will be using for the entire Fall 2023 term. This will be used as an estimation only. Graduate TAs are not permitted to work more than 140 hours for the term or more than 10 hours in any given week (70 hours or 5 hours a week for a ½ TA). When thinking of the duties you might have for your TA, we ask that you be mindful of this constraint and try not to come up against it. TAs own coursework comes first. Negotiations for a reasonable amount of time for returning marked assignments, etc. will occur as needed.

Duty	Est Assigned Hours for Term or N/A	Brief description of unusual or especially time-consuming features of the duty, if any
Meetings with Course Instructor	5
