

**Fall 2024 TA Job Posting for ECON \_\_\_\_\_372\_\_\_\_\_ (Please fill in your course number)**

**Please give a brief description of the course content or a link to the course outline:**

The purpose of this course is to provide students with advanced topics in corporate finance and their applications. The key concepts and topics to be covered include security valuation, risk and return, risk diversification, capital asset pricing model (CAPM), investment performance measurement, financial derivatives, and forecasting. Students will learn how to apply these concepts to real world problems using various examples and case studies. The course deepens the general framework of financial landscape offered in ECON 371 by discussing the role of financial instruments and institutions in the economy. This course will further develop the analysis of firms’ and investors’ investment and financing decisions. The goal is to develop a deeper understanding of financial markets and investment strategies.

Please fill out this chart as closely as you can for the TA duties and hours you predict the course will be using for the entire Fall 2024 term. This will be used as an estimation only. Graduate TAs are not permitted to work more than 140 hours for the term or more than 10 hours in any given week (70 hours or 5 hours a week for a ½ TA). When thinking of the duties you might have for your TA, we ask that you be mindful of this constraint and try not to come up against it. TAs own coursework comes first. Negotiations for a reasonable amount of time for returning marked assignments, etc. will occur as needed.
