

Winter 2024 TA Job Posting for ECON 409

Please give a brief description of the course content or a link to the course outline:

This course examines the role of labour markets in the macro-economy. It focuses on the analysis of aggregate employment, unemployment, labour force participation, and earnings inequality. The main goal of the course is to understand current labour-market outcomes both in Canada and around the world.

Any necessary knowledge or skills needed:

Please fill out this chart as closely as you can for the TA duties and hours you predict the course will be using for the entire Winter 2024 term. This will be used as an estimation only. Graduate TAs are not permitted to work more than 140 hours for the term or more than 10 hours in any given week (70 hours or 5 hours a week for a ½ TA). When thinking of the duties you might have for your TA, we ask that you be mindful of this constraint and try not to come up against it. TAs own coursework comes first. Negotiations for a reasonable amount of time for returning marked assignments, etc. will occur as needed.
